DETAILED ACTION

1. This communication is in response to the RCE dated 7/24/2009. The minor correction of the specification; the amendments of claims 1, 8, 9; and the addition of claims 19-22 have been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Aldo D'Ottavio on 9/14/2009.

- **In the claims:** claims 21 and 22 have been cancelled.

Allowable Subject Matter

3. Claims 1-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 8 and 9, the dependent claims 8 and 9 were indicated as objected-but-allowable in the last Office Action dated 2/24/2009. Claims 8 and 9 have been rewritten in independent form including the previous independent claim and the indicated allowable subject matter. Therefore, claims 8 and 9 are now allowed.

Regarding claim 1, the prior arts of record fail to teach or disclose a transmission device for transmitting data in an installation for working fluids contained underground as recited in claim 1, wherein said transmitter means comprises a first electrical contact point with the tubular element; and a second electrical contact point with said cable, said second electrical contact point of said transmitter means being electrically separated from said first electrical contact point of said transmitter means such that said transmitter means can apply a voltage between said first electrical contact point of said transmitter means and said second electrical contact point of said transmitter means; and wherein the receiver means for receiving electrical and/or electromagnetic signal, said receiver means being situated in a vicinity of the other one or both of the first point and the second point, said receiver means having a first electrical contact point with the tubular element; and a second electrical contact point with said cable, said second electrical contact point of said receiver means being electrically separated from said first electrical contact point of said receiver means such that said receiver means can detect a voltage between said first electrical contact point of said receiver means and said second electrical contact point of said receiver means; wherein said cable is a portion of a loop for conveying the electrical and/or electromagnetic signal between said transmitter means and said receiver means.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
